A DESERTION ON CUBA CONTEMPLATED.—It is said that the ultimate object of Col. Kinney and his followers, and the band of adventurers known to be concentrating in Central America, is a desertion on Cuba. When they establish themselves at Greytown, they will set up a nominal government of their own, and gather men and munitions of war to invade the coveted island. The California steamers, for some months past, have been taking out enormous crowds of passengers, a great portion of whom are filibusters, bound for the grand rendezvous on the isthmus. The Chicago Tribune of Saturday last says:

Seventy-eight men, enlisted for the Kinney Expedition, will leave this city this morning for New York, under the command of a Captain. They are principally enlisted in St. Louis, and are said to be young men far superior to those who would naturally be gathered for such an enterprise. We learn that they will sail as soon as they arrive upon the coast.

The New York Journal of Commerce, of Tuesday afternoon, had the annexed significant item:

Two California steamers sailing yesterday took out 1,400 passengers.

LOUIS O. HUBBARD, Chief Clerk.

WHITEMAN'S PATENT MILL BURNED.—The extensive paper mills of W. S. Whiteman, located on the Clarksville turnpike, about seven miles from the city, were destroyed by fire yesterday. The flames were discovered about nine o'clock, and the mill was in flames in less than five minutes. The loss is estimated at \$40,000. They were insured in the Tennessee Marine and Fire Insurance office of this city for \$5,000, and in the State Mutual of Pennsylvania, at Harrisburg, for \$5,000.

The destruction of this establishment will prove a great calamity to the newspaper publishers in this city, and throughout the State. Many of them were almost entirely dependent upon Mr. Whiteman for supplies. We believe there is enough paper abroad to supply the city custom for about two months.

Mr. Whiteman had just completed extensive improvements, and had a new machine in operation. The mill was the largest of its kind in the South, and was one of the best. We have reason to believe, from a knowledge of the character of the man of energy and resources, that he will speedily repair the mill, and go ahead again.—Nashville Whig, 23d inst.

CHOLERA.—The cholera, at last accounts, was prevailing to an alarming extent in and around Louisville. It is now on long island, and is training for a trotting race with Thunderbolt, a Black Hawk horse owned by Mr. Felton, of Baltimore, for \$300 a side. The race is to take place on the 1st of September.

FATAL AFFAIR.—In an affray at Little Rock, Arkansas, on Sunday, the 5th inst., between John M. Butler and Edward Marcus, brothers-in-law, both were killed. Mr. Butler was the publisher of the Arkansas Whig, and Mr. Marcus a merchant tailor, and both highly respected. A bad feeling had existed between them for a long time.

GREAT RACE.—Knowing the property of Mr. Henry J. Smith, of Herndon, Va., the Richmond Dispatch says, is now on long island, and is training for a trotting race with Thunderbolt, a Black Hawk horse owned by Mr. Felton, of Baltimore, for \$300 a side. The race is to take place on the 1st of September.

GRAND CROSS OF COMMANDER.—Mr. Mossi, for many years Saradin Minister at Washington, but now assistant minister of foreign affairs at Turin, has recently received a mark of his sovereign's confidence in the grand Cross of Commander—which is equivalent to knighthood in England.

FEMALE SURGICAL STUDENTS.—The New York Medical Times says, that seven young and fair looking women may be daily seen at the New York Hospital, following the physicians and surgeons on their rounds, and are present at all operations, on males and females.

The New York Tribune, of Wednesday says: "We learn from Massachusetts that the Hon. Robert C. Winthrop has written a letter, declining to join in the proposed fund for the relief of the State. From this we conclude that Mr. Winthrop's retirement from public life, though first enforced, has now become voluntary, and is intended to be final and absolute."

POOR TOM'S A-COLD.—Thos. G. Booth, the actor, once a great favorite in Louisville, died recently in Toronto, Canada. His life was chequered—clouds and sunshine, prosperity and misfortune. With all his faults a generous heart beat in his bosom, and many will drop a tear of regret that "poor Tom's a-cold."

Harley's Sarsaparilla is the standard medicine of the day. We would recommend those disposed to ague, to take a bottle. It corrects the secretions of the stomach, discharges the liver of a superabundance of bile, and traces up, in a wonderful manner, the nervous and muscular system. Agreeable to try this.

The fact is noted by the New York Express, that Abbot Lawrence lacked but one vote in the Waig National Convention, of being the nominee of the Whig party for the Vice-Presidency, and consequently narrowly escaped the Presidential chair, afterwards, on the death of Gen. Taylor, filled by Millard Fillmore. The same paper states that the estate of the deceased is estimated at \$3,000,000.

A Convention of the husbands is to be called shortly, to meet at Syracuse, New York, to take some measures in regard to matters of fashion. They say that since they have to support the expense of fashion, they have an equal right to regulate it. A proposition to raise nothing but boys in the future, is to come before the Convention. This is to be called the "Husband's Rights' Party."

The Richmond Dispatch says an ingenious German in that city has invented a bedstead, which, in view of the mosquitoes that are here, is one of the most useful inventions of the year.—The frame of the bedstead contains machinery at one simple and effective, which, being wound up, will put in operation a fan of fans, suspended above the sleeper. When wound up the machinery will move the fan from seven to twelve hours with rapidity, regulated at pleasure by the occupant of the bed, creating a brisk and stirring breeze, or gentle, soothing zephyr.

A Few More Bottles Left.—Dr. Sherrill, whose depot is at 455 Market street, between Third and Fourth (north side), wishes us to say that the run, for the last few days, upon him for that celebrated remedy for Chills and Fever—Morrison's Eucalypti—did not quite exhaust the supply; and that his arrangements are such, that he will keep a constant supply to meet any demand, at wholesale or retail.

Every person who suffers from that loathsome disease, Chills and Fever, either in city or country, should send and get this remedy.

RIVER AND WEATHER.

River.—The river was falling last night, with five and a half feet water in the canal by the north.

Yesterday was quite pleasant, and last night cool.

PITTSBURGH, August 21st.—There are four feet four inches water in the channel and at a stand. The weather is pleasant.

The swift Telegraph No. 3, the regular packet to-day for Cincinnati, and the regular packet to-day for St. Louis, will leave at 10 o'clock.

The Belle Quaker, Captain Cline, will leave at 10 o'clock, for Cincinnati, and the regular packet to-day for St. Louis, will leave at 10 o'clock.

Captain Green will start to New Orleans this afternoon, at 6 o'clock, with his new steamer Leconte. Send down your freight.

The little James Paul will to-day make his first trip up the Kentucky river. If you have any freight, send it down to the steamer wharf at a stand.

Thanks to our friends of the fine steamer Fanny Bullitt, for full river favors, manifest, memorandum, and New Orleans papers of the 18th. We are glad to have had the full river of passengers and not one case of sickness.

ABOUND.—The Fanny Bullitt reports the late Frisco steamer at Island No. 5.

The White River is lying up at Evansville till fall opens.
